

## THE LONG GAME

17th Oregon Leadership Summit  
Monday, December 16, 2019  
Oregon Convention Center

## SUMMIT SEGMENTS WILL UNDERSCORE COMING IMPACTS OF AI AND OTHER INNOVATIONS, PLUS WHAT THAT MEANS FOR SKILL REQUIREMENTS AND ACCESS TO POSTSECONDARY EDUCATION

Rapidly evolving technology, in particular artificial intelligence, is reshaping the nature of the workplace. It's redefining the skills required for success in jobs that are either changing or haven't yet been invented.

This calls for our education system to create better pathways for Oregonians to career success, especially our postsecondary institutions. More than ever, Oregonians need greater access to education beyond high school, whether apprenticeships, technical studies, or four-year, graduate, or professional degrees.

Nachman

The Leadership Summit will feature two speakers who are leading this future as well as watching it unfold. What they portray will be pertinent to an afternoon breakout session that explores strategies and investments Oregon needs to make on behalf of better postsecondary outcomes.

Lama Nachman is an Intel Fellow and Director of Anticipatory Computing in Intel Labs. Shane Wall is Chief Technology Officer of HP and Global Head of HP Labs. Nachman will explore the potential of AI to amplify human potential. Wall will peer into the future of manufacturing.

Wall

The breakout session will brief participants on a year-long initiative, soon to be launched by the Higher Education Coordinating Commission, to develop a strategy and funding plan to dramatically improve postsecondary access and completion. That effort will include a look at rising skill needs in the workforce, education pathways for students from K12 into postsecondary education, and ways to fund better outcomes.

## THIS YEAR'S SUMMIT STRESSES THE LONG GAME

The Leadership Summit returns to a strong focus on economic development. It asks, how can we shape our economic strategy for the long term to lift up all Oregonians and support strong, healthy communities? In particular, how can we navigate large trends shaping our economy and lives? These include changing demographics, growth in global markets, accelerating technologies, and a warming planet. How do we position our enterprises and policies to deal with these challenges and opportunities? In doing so, how can we make sure that opportunity and prosperity are shared among Oregonians more broadly and inclusively?

Please join Oregon business, public, and thought leaders in this important dialogue, and its implications for such policy issues as education, health care, natural resources, poverty, housing, and other topics.

**Onsite Registration/Check-in, 7:30 a.m.**  
**Event, 8:30 a.m. - 5:00 p.m.**  
**Reception, 5:00 p.m.**

## AS ALWAYS, WE WELCOME SPONSOR SUPPORT

Sponsorships support both the Leadership Summit and the Oregon Business Plan's year-round work on policies to improve Oregon's economy and opportunities for our people. Please click the button below to learn more.
